

# **ME AND MY UNIVERSE:** **A SPIRITUAL ENCYCLOPEDIA**

By Dr. Sandra Adler

## **BOOK 3 - MY HOME**

I'm from the Universe. That is my home.  
Before I return I've places to roam.

Home is my Universe; don't think me odd.  
Some call it the Cosmos, the All and God.

Before I was on Earth I was out there  
Making a plan that to me would be fair.

During the day Planet Earth is my school  
Where I learn about you and me. It's cool!!

I learn from my family and my friends.  
I learn from teachers; and it never ends.

I've come here to Earth for me - it's to grow.  
I know I will learn I reap what I sow.

My purpose in life is to be the Real Me.  
Being loyal to myself I'll always be free.

At night time when I look up at the sky  
Sometimes I see a shooting star fly by.

I get a good feeling - sometimes the chills.  
I've been out there before – way past the hills.

My physical home is right here where I am  
In my body that I keep out of a jam.

My spiritual home is the All near and far.  
I can go everywhere not needing a car.

Each night I go home - strange as it may seem –  
To my spiritual life I call my dream.

Talking to angels and making a plan  
So that I will do the best that I can.

To have pleasant dreams is easy to do.  
Before going to sleep I say, "I love you."

I think happy thoughts when I go to bed  
This makes me feel good and clears out my head.

I live in two worlds all at the same time;  
A soul with a body truly is fine!

I'm one with all things in this universe  
To feel separate from that - nothing is worse.

I'm part of the birds; I'm part of the bees;  
I'm part of the wind and part of the seas.

The frog and butterfly and I are one  
Just as the rainbow, the moon and the sun.

The stars and the planets are where I play.  
When it looks like I'm sleeping as I lay.

I can go to the future and the past  
In the blink of an eye. I'm really fast.

They say I've a great imagination.  
It's where I've been; it's not a creation.

My home is a place that I feel secure.  
I know that I travel. Of this I'm sure.

I live in this world but I am not of it.  
Here for this lifetime and love every bit!

If my friend gets hurt I can feel his pain  
So I try to help till he's fine again.

Some lessons I learn are joyful and fun.  
And others I'm happy when they are done!

It is part of life and happens to us all -  
Passing on in Summer, Spring, Winter or Fall.

**All living things call the spirit world 'home.'  
When we're on Earth everywhere we can roam.**

**When my work is done at three or ninety  
I'll release my body that has helped me.**

**I'll go home with my angels to guide me  
Following the lights that fly beside me.**

**They will take me to a school in the sky  
To make a new plan and give it a try.**

**I will have completed my life's mission,  
My spiritual thrust. It was my vision.**

**That is why I come here time after time  
Choosing my angels and getting in line**

**To find the parents who'll give me a start  
With a new body and love from their heart.**

**When my work is done I won't be afraid.  
I'll thank myself for the progress I've made.**

**I will leave much better than when I came  
I am smarter now from playing the game.**
